

- a strong solution for the environment

MINERALWOOL RECYCLER

The ReTec Mineralwool Recycler is designed to purify and reduce recycled mineralwool waste.

The machine separates in 3 fractions. The clean recycled mineral wool can be used in the production of new mineral wool or as additive to the ceramic industry.

Technical data:	
Input	Basic sorted mineralwool waste from building sites, demolition sites or recycling center. The material can have impurities such as rocks, stones, nails, wood etc., which will be sorted in the machine.
Capacity	Up to 15 tons/h
Output	3 fractions: <ul style="list-style-type: none"> • 0-30 mm very pure mineralwool • 30+ mm non-FE impurities for further treatment, incineration or deposit. • FE (nails, brackets etc.) for recycling
Volume reduction	20 : 1
